

## **HOW TO DOWNLOAD ARTICLES FROM THE WORLD WIDE WEB**

1. Go to: <http://www.library.ucla.edu/libraries/biomed>
2. In the box "Search for Online Journals" at the left of the page, type the journal title in the blank field, and click "go."
3. You will be taken to another page where the search results will be displayed. Click on the link to the journal for which you are searching.
4. Find the journal volume and issue number for which you are looking, then find the article you need.
5. You will usually have the option to download the entire article in either HTML (web browser format) or PDF (journal format). The article will print out shorter if downloaded in the PDF format.
6. Print out the article and have fun reading!
